**To Whom It May Concern**

Dear Sirs,

**Re: Pennine Demolition  
Unit 2 Woodland Mill  
Dale Street  
Longwood  
Huddersfield**

I can confirm that I have known Pennine Demolition since we placed an order with them on to carry out the demolition of an traditional built Sheltered Housing block at Halifax in June 2006, they then went onto demolish another sheltered housing building in Brighouse, a large Victorian house in Rotherham and an old Cinema building in a very delicate area and difficult location. All of which were carried out and completed on time without any incidents or problems.

In this time Pennine have proven to be a very professional company and showed that they hold a keen interest and good commitment to our company who will always be considered for future demolition works within our organisation. They have also proved to have a better than average attitude towards any Health and Safety matters in all areas of demolition.

We have worked closely together with Jeremy Walker over the past few years and built up a good working relationship with him. We wish them all the best in finding future work.

Please do not hesitate to contact me for any queries or further information required regarding any of the above.

Yours Faithfully
